

What is AWS Skill Builder?

AWS Skill Builder is a digital platform providing over 600+ digital courses including exam prep resources, game-based learning, labs, challenges, and more.

Develop AWS skills with interactive and hands-on learning environments

Translate business problems into technical solutions by enrolling in an [AWS SimuLearn](#) training that pairs gen AI-powered simulations with hands-on building.

Build role and industry expertise while having fun with [AWS Cloud Quest](#) and [Industry Quest](#).

Explore the building blocks of AWS Cloud architecture through virtual card games, [AWS Card Clash](#).

Strengthen your team's AWS knowledge and foster collaboration by hosting and participating in trivia sessions through [AWS Skill Builder Trivia](#).

Learn hands-on in the AWS Console

Unlock hundreds of self-paced labs to develop and apply practical skills. Receive guided instructions for common cloud scenarios in a live AWS environment, and practice building without risk of unanticipated expenses. Available with the AI-powered, trainer-inspired AWS Learning Assistant to help you answer queries, explain code, and discuss product implications—all within your lab's context.

AWS Skill Builder Process for Educator

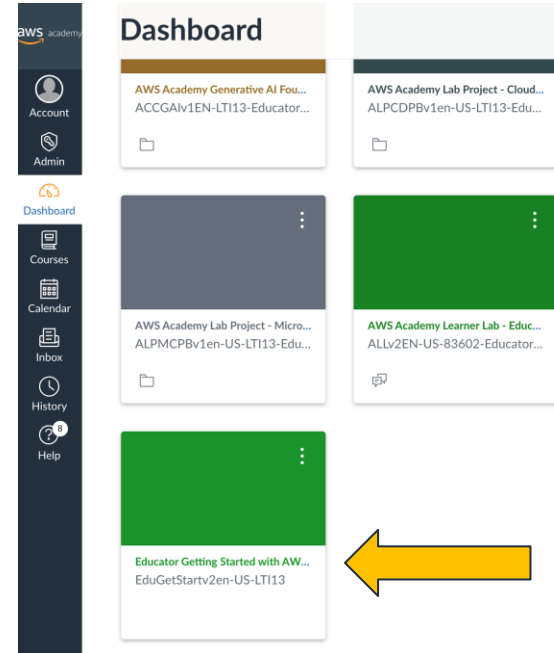

- An AWS Academy educator is eligible for a free 1-year subscription to AWS Skill Builder, based on the activation start date.
- Each educator is eligible for four AWS certification vouchers based on the AWS Skill Builder course passed.
- Important notes for students:
 - Your email must have been verified in Canvas.

AWS Skill Builder Process for Educators

The following is the process for an educator to follow to activate their free 1-year subscription to AWS Skill Builder:

Step 1:

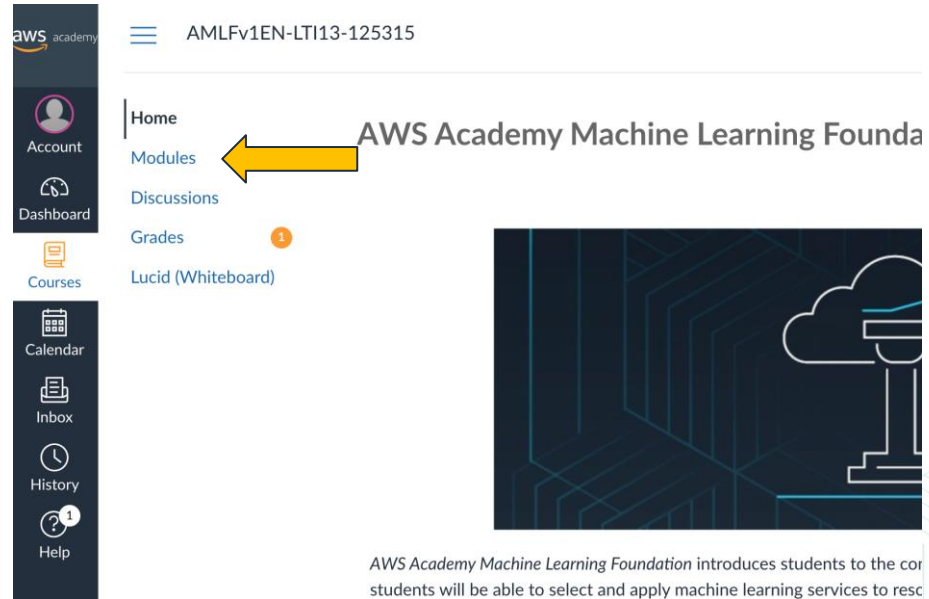

Login to Canvas and select the “Educator Getting Started with AWS Academy” course.

AWS Skill Builder Process for Educators

Step 2:

Select the Modules menu item.

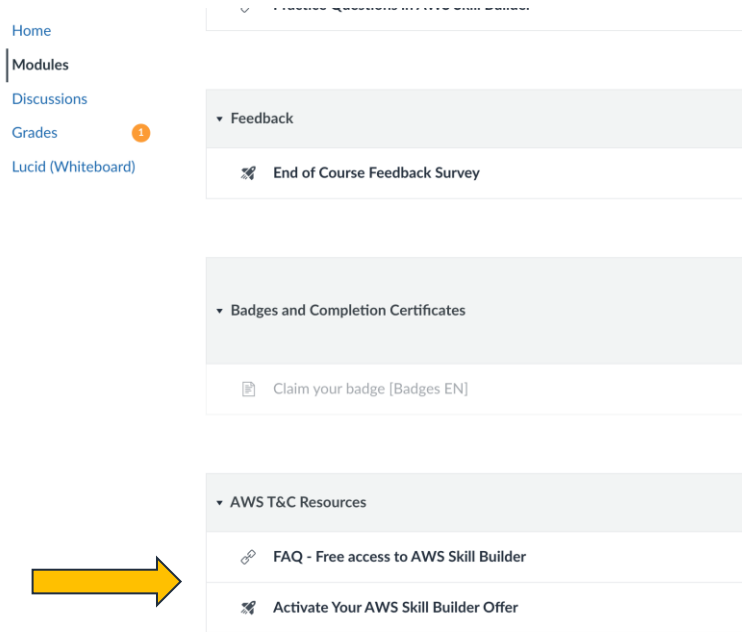

The screenshot displays the AWS Academy user interface. On the left is a dark navigation sidebar with icons for Account, Dashboard, Courses, Calendar, Inbox, History, and Help. The main content area shows a header with the user ID 'AMLFv1EN-LTI13-125315' and a list of menu items: Home, Modules, Discussions, Grades (with a notification badge), and Lucid (Whiteboard). A yellow arrow points to the 'Modules' menu item. To the right of the menu items, the text 'AWS Academy Machine Learning Founda' is visible, which is the start of a title for a course. Below the menu items is a large image showing a stylized cloud and server rack graphic.

AWS Academy Machine Learning Foundation introduces students to the core concepts of machine learning. Students will be able to select and apply machine learning services to resolve

Step 3:

Scroll down to the last module named "AWS T&C Resources". Review the FAQs and select the link called "Activate Your AWS Skill Builder Offer".

The screenshot shows a navigation menu on the left with the following items: Home, Modules, Discussions, Grades (with a red notification badge containing the number 1), and Lucid (Whiteboard). The main content area is divided into three sections:

- Feedback**: Contains a link for "End of Course Feedback Survey".
- Badges and Completion Certificates**: Contains a link for "Claim your badge [Badges EN]".
- AWS T&C Resources**: Contains two links: "FAQ - Free access to AWS Skill Builder" and "Activate Your AWS Skill Builder Offer".

A large yellow arrow points from the text on the left to the "Activate Your AWS Skill Builder Offer" link in the screenshot.

Quiz Instructions

As part of our commitment to your continued growth, we're offering you complimentary access to AWS Skill Builder for a full year. This includes curated learning plans emphasizing deeper Generative AI content, access to premium courses, hands-on labs, and resources to accelerate your cloud career.

Question 1

1 pts

I consent to AWS Academy sharing my information with AWS Skill Builder. AWS handles your information in accordance with the AWS Privacy Notice. This includes:

- My first and last name
- My email address

- Yes, I consent to sharing my name and email with AWS Skill Builder to receive 12 months of free AWS Skill Builder Premium access.
- No, I decline the AWS Skill Builder offer.

Submit Quiz

AWS Skill Builder Process for Educators

Step 6:

Confirm email address in LMS

In most cases, email addresses are automatically confirmed in Canvas. However, there are some instances where an email address must be manually confirmed.

1. Click **Account (Your Profile Picture)** in the left-hand Canvas navigation.
2. In the Account menu, select **Settings**.
3. Review your email address details.

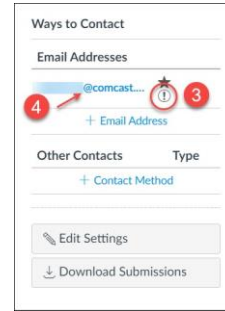

If there is a star symbol next to your email address, your email address is confirmed. – Your account are all set

If there is an exclamation point symbol next to your email address, your email address needs to be confirmed.

4. Click on your email address to resend the confirmation message to your email account.
5. Allow a few minutes for the email to arrive.

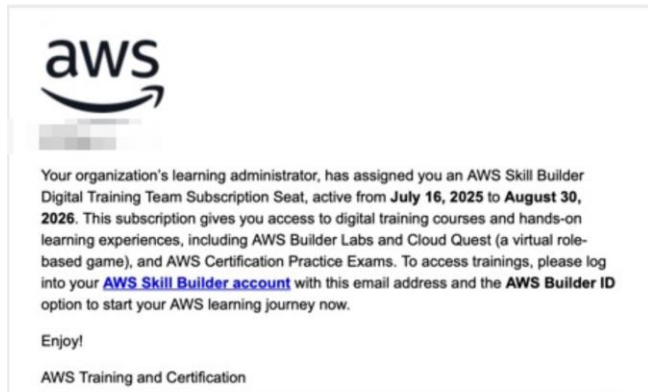

Click the link **Click here to confirm this registration** to complete the confirmation process.

6. Log on to your email account.

AWS Skill Builder Process for Educators

- After the form is submitted, it can take up to 2 weeks to activate your subscription. You will receive an email from AWS Skill Builder with further instructions.
- Please sign into your account by the account activation link

Hi,

You have been added as a Learner to AWS Skill Builder by your Learning Administrator at Academy New Graduates Program. [Sign into](#) your account with this email address using the **AWS Builder ID** option to start your AWS learning journey now.

Enjoy!
